### Wholesale Prices

Effective December 1, 1934, all invoices for purchases will be charged at the prices quoted in this Burpee Red List unless **special offers** are made by letter or telegram and referred to in the order. Order early—you cannot sell seeds if you do not have them.

We expect to adhere throughout the spring to the prices quoted herein, except where decisive changes require an adjustment of prices, in which case we shall be governed by the market. All goods are offered subject to prior sale, and we reserve the right to change prices without notice, if it should become necessary.

### Credit and Terms of Payment

Our terms are cash with order unless you have an account with us or are satisfactorily rated by the Commercial Agencies. ## Fordhook Farms and Experimental Gardens

**At Beautiful Doylestown, Pa.**

"Fordhook" long ago became a well-known and well-loved name among gardeners all over the world, for many of the famous Burpee introductions are named for the great Fordhook Farms. Extending around and right into beautiful Doylestown are the 800 acres of fertile farms and gardens which make up Fordhook. Here is produced the seed of many special strains of vegetables and flowers under the supervision of a large staff of experts.

Here also are the famous Fordhook proving grounds, the largest in the world, where all Burpee Seeds are thoroughly tested so that they may be backed by the Burpee guarantee. After a visit to Fordhook, Luther Burbank, the famous plant wizard, wrote: "Your Fordhook Trial Grounds were the best of all my eastern object lessons. I had no idea of their extent and value not only to yourself but to your customers, and eventually to everyone who cultivates the soil."

The Burpee Flower Gardens at Fordhook always offer something to interest and delight gardeners. Visitors are very welcome at all times.

*The Burpee Flower Gardens are on route  
611, 24 miles north from Philadelphia* ➔

## Floradale Farms

**At Lompoc, California**

*Where the Big Sweet Peas Grow*

Yes, and the big Zinnias, Petunias, Snapdragons, Asters, and all other flowers too. Here, under ideal conditions of soil and climate, Burpee produces the wonderful seeds that are famous as the best seeds that grow. Burpee's Floradale Farms comprise hundreds of acres in the fertile Lompoc Valley, about 40 miles north of Santa Barbara. The rich, deep soil, the moderate climate, and the heavy night dews all combine to give the seeds grown here exceptional vigor, vitality, and hardiness, which assure sturdy growth and successful blooming wherever they are grown.

Sweet Peas have always been one of the notable specialties at Floradale Farms. There are hundreds of acres of them and when they are in bloom they form one of the wonder-sights of America. Then, of course, there are all the other flowers for which Burpee is famous—and many vegetables as well which develop best in this climate. Like Fordhook, Floradale has also given its name to a large number of outstanding Burpee introductions. Its vast expanse of gorgeously colorful gardens has given Floradale a world-wide reputation as "The California Home of Flowers." It is one of the magnets of Western America, drawing thousands of visitors every year.

# Burpee's Marvelous Giant Ruffled Sweet Peas

(SUMMER-FLOWERING)

*The Newest and Most Beautiful of All*

The new Giant Ruffled Sweet Peas are Burpee introductions, having been developed on the Burpee Floradale Farms in California after years of most careful breeding and selection. The main characteristic of this new type, acclaimed by experts as the greatest advancement in Sweet Peas, is the duplexness and extra frilliness of the flowers. This imparts a double appearance to the large wavy flowers, the frilliness extending even to the edges of the wings. Distinct, beautiful, and interesting.

## BURPEE'S TWO LOVELY NEW GIANT SWEET PEAS FOR 1935

### 3550 Daylight

The color is a glorious primrose-pink brightened by tones of coral or peachbloom-pink changing to Orient pink at the edge of the petals; the base of the petals as well as the keel are a rich yet soft cream. A suggestion of gold throughout is most pronounced on the back of the standard. A warmth and pleasing glow is given to the flowers by these rich tones of pink and gold in both the standard and wings. The flowers are large, of heavy substance and placed artistically in fours on long stems. Packets of 20 seeds to retail @ 25¢ each (\$12.50 per 100 packets; \$100.00 per 1000 packets); oz. \$2.00.

# Burpee's Sweet Peas

## Early or Winter-Flowering

Burpee's Early or Winter-Flowering Sweet Peas have been developed particularly for greenhouse culture and for outdoor planting during the winter months in warmer climates, such as southern United States, Australia, New Zealand, and South Africa. In cooler climates they will bloom two to three weeks earlier than the Summer-Flowering type sown at the same time, but will not flower as continuously. For general outdoor planting in cooler climates the Summer-Flowering varieties on the following pages are used.

Burpee's Sweet Peas are famous the world over as the "Best That Grow." Flowers are large and usually come in fours on long, strong stems. Free blooming. Varieties marked with a star (\*) are leaders of their class.

One-half lb. of any variety at  $\frac{1}{2}$  the lb. rate;  $\frac{1}{4}$  lb. of any variety at  $\frac{1}{4}$  the lb. rate. **WRITE NOTHING BUT THE ORDER ON THIS ORDER SHEET.** If you wish to write anything beside the order, write on a separate sheet of paper, but mail it in the same envelope. Both order and letter can be given more careful attention if on separate sheets.

WE PAY THE POSTAGE, EXPRESS OR FREIGHT to your town, no matter where you live, on everything offered in our catalog, excepting where otherwise stated.

**ALWAYS SEND REMITTANCE WITH ORDER.** Our terms are the same to all. Our business is done on a cash basis.
